

CONSILIUM technologies

What Are We Hoping To Achieve?

- Increase the visibility of the development roadmap
- Ten areas that we have worked on this year
- Five areas that we are planning on working on

Ten Areas That We Have Worked On This Year

Improved Integration Between Total and TotalMobile

- Flexibility in terms of the information that can be sent from a Total job to a device
- Integration between Cyclical gas assets and Mobile Gas Inspections

e-Trading Support For Multiple Suppliers

- What is e-Trading?
- What was the position before this change?
- How does it work now?
- What's the big deal?

Subcontractors Access Lite/ Subcontractors Access

- A new environment to assist in the management of work subcontractors
- Reduces the effort involved in managing the financial aspects of managing subcontractors

Q and A

- A new application to allow you to define a set of questions and responses that you want to be used when raising a job
- Integration to Total Job wizard
- Integration to TotalView Request Manager

Wireless Stores Enhancements

- Displays the current balance for the item when doing a stock issue or return
- Support for mobile devices with a higher resolution screen
- Support for issuing Kits
- Adhoc Stocktakes
- Total Stocktakes
- Will support van stocktakes in the future

Job Builder

- Mobile application aimed particularly at Voids type work that will allow the detail of the work to be undertaken to be identified.
- Supports the addition of new detail lines to the original job involved in the inspection.
- Supports the creation of new jobs as a result of detail that has been captured.

e-Docs

- What was the position before this change?
- How does it work now?
- What's the big deal?

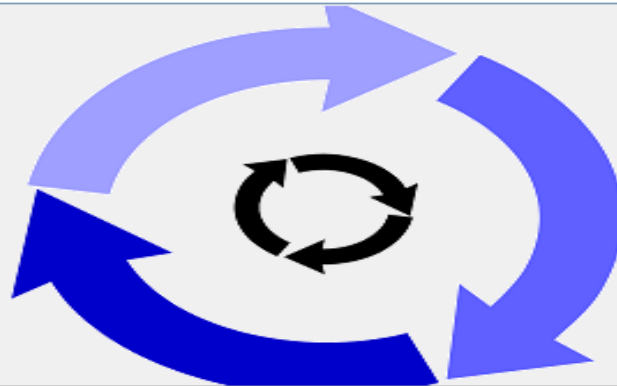

Cyclical Enhancements

- Help me set Cyclical plans up - Cyclical setup wizard
- Help me make better use of the information - Future jobs screen for job wizard

Wizard Selection Page

Select an action from the list below.

Choose an action

- Create/Select Plan(s)
- Create Plan
- Create Locations
- Create Asset Types
- Create Schedule
- Finish Wizard

- ...

Five Things That We Are Planning On Working On

Five Things That We Are Planning On Working On

- Support for SQL 2008 and Windows Server 2008
- Mobile Materials enhanced to support an outsourced materials supplier
- Handle visits within Total
- Increased flexibility around completions from TotalMobile
- Building solutions based on some of the good foundations that have been put in place in TotalMobile (Mobile Visits, Forms and Folio)

Next Steps

Speak to me later if you want to know more about the detail of these things.

Speak to your account manager if these areas are of interest to you and you want to progress them.
