

Eliminate the paper trail by completing and submitting e-forms anywhere with...

...TotalMobile Forms

TotalMobile Forms is the data collection application for TotalMobile designed to replace paper by using electronic data capture linked directly into central systems to improve the speed and accuracy of data collection.

Features

- Capture information in the field fast and efficiently
- Links captured data into corporate systems
- 'Casual connect' mode backs up data in areas of poor signal quality
- Create and publish new data forms across a widely dispersed workforce in minutes
- Works as an independent application and in conjunction with other **TotalMobile** applications for enhanced functionality

Benefits

- Saves time by integrating data with back office systems
- Access information on corporate systems seconds after collection
- Reduce administration by avoiding the manual rekeying of data
- Save paper and the environment
- Improves accuracy by capturing and validating data at the scene

TotalMobile Forms runs on Windows Mobile™ devices and complements your existing IT infrastructure through seamless integration with back office systems and databases.
