

Document and submit gas inspections remotely with...

...TotalMobile Gas

TotalMobile Gas is a data collection application for **TotalMobile** designed to replace paper based landlord gas safety checks and allows engineers to submit them instantly for approval and printing on-site.

Features

- Record, detail and submit landlord safety checks instantly
- Link information to office systems for instant approval
- Issue gas certificates and receipts on site (printer required)
- Works in conjunction with other TotalMobile applications for enhanced functionality i.e. use with Job Management to receive and manage Gas Inspections assignments

Benefits

- Save time and money by eliminating paper forms and the associated processing costs
- Improves engineer productivity and speed of response
- Deal with safety issues on site without the need for a second visit
- Saving time and postage by providing tenants with printed copies of repairs work at the scene

TotalMobile Gas runs on Windows Mobile™ devices and complements your existing IT infrastructure through seamless integration with back office systems and databases.
