

**Manage stock, materials and equipment remotely with...**

## **...TotalMobile Materials**

**TotalMobile Materials is a remote stock management application for TotalMobile which tracks, costs and reorders stock instantly to keep supplies at specified optimum levels.**

### ***Features***

- Management of imprest stock in vehicles and stores
- Allows for the instant reordering of stock
- Allocates equipment costs to specific jobs
- Generate replenishment requests automatically
- Integrates with stock management software
- Works in conjunction with other TotalMobile applications for enhanced functionality i.e. use with Job Management to assign material costs to specific jobs

### ***Benefits***

- Reduce administration time spent managing stock
- Save time by eliminating unnecessary journeys to warehouses
- Removes duplicate data entry
- More efficient re-ordering
- Ability to link to outside suppliers
- Up to the minute management information and stock monitoring

**TotalMobile Materials** runs on Windows Mobile™ devices and complements your existing IT infrastructure through seamless integration with back office systems and databases.
